

INTERNATIONAL CALL

2025

Frontiers in T1D Cure

Advanced Grants for Leading Researchers

The **DiabetesCERO Foundation** launches the first international call *Frontiers in T1D Cure 2025* to fund innovative biomedical research aiming to cure type 1 diabetes. Two grants of up to €100,000 each will support 2-year projects by established researchers with a translational approach. Proposals will be reviewed by a top-level international scientific committee. Apply to advance research for a cure for type 1 diabetes.
